

LIVETARGET

Smallmouth Bass

Micropterus dolomieu

Match the hatch done to perfection! The LIVETARGET® Smallmouth Bass will be a rockin' hit with tournament Bass pros lookin' for their last cull. With its' unique profile and remarkably realistic detail, this one-of-a-kind bait will be the 'buzz' at the weigh-in station. Like its cousin, the LIVETARGET® Yellow Perch, the Smallmouth Bass model hosts a weight transfer system, enabling the angler to place the target on a dime, even in windy conditions. The tight wiggle and moderate flash appeal are strategically synchronized to trigger monster shots. Available in 2 sizes and 2 colors, this is the one you've been waiting for. Tie one on and feel the rush all the way to the podium.

100 - Natural Matte

102 - Metallic

The 'young of the year' Smallmouth Bass are commonly found in lakes and rivers throughout Eastern Central North America and prefer the security of rock and weed cover and sandy areas. This popular baitfish is a favorite prey to adult Bass, Walleye and Northern Pike.

A must have, the LIVETARGET® Crawfish trap is an ideal combination of a lipless rattle tool and a 'fleeing' craw hatch. The anatomical 3-D texture generates multiple shadow and flash point effects, fooling even the wariest gamefish. The internal mechanics are enhanced by a rattle chamber that drives a harmonic frequency attracting predators like moths to a light. Work it with a 'retrieve and drop' style application over grass tips, pound a rocky bottom or simply chuck and wind. The first of its kind.....a true winner!

Although all freshwater gamefish feed on this crustacean, they are a favorite food source of both Smallmouth and Largemouth Bass. Crayfishes are found throughout the world, living in most freshwater environments.
